Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 11, 17 and 18 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 07-149575.

JP '575 teaches a composition which comprises silica sol having silica up to a level of 5%, and a polyacrylic acid at a level of 0.001 – 1.0%, which overlaps in scope with the levels of up to 400 ppm of the present invention.

3. Claims 12-15 and 20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 21-27 and 29-33 are allowable over the art of record.

5. Applicant's amendment has overcome the rejection under 35 USC 112. Applicant's arguments with respect to JP '575 have been considered but are not deemed persuasive. The range of 0.001 to 1.0 parts per 100 parts of the composition described by JP '575 is equivalent to 10 to 10,000 parts per million, which is inclusive of

Art Unit: 1712

the 0.01 to 400 parts of the present invention. The point of 0.01 taught in the abstract is 100 parts per million. Even if applicants arguments were valid in only considering the sol and polyacrylic acid, 1 part polyacrylic acid per 5000 parts silicate is equal to 200 parts per million. There is thus no distinction seen in the claimed material and the teachings of JP '575.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
